## PROFESSIONAL EXPERIENCE

---

### Svitla Systems

Senior iOS Engineer | Lviv, Ukraine | Sep 2024 - Present

- Rejoined a project previously contributed to and currently serve as a Senior iOS Engineer, overseeing core feature development for an app with over 1.2 million active weekly users.
- Implement innovative features and deliver high-impact product solutions.
- Optimize key areas of the codebase to improve user experience and maintain seamless app performance.
- Lead implementation of complex architectural solutions to improve core functionality.
- Contribute to key features and resolve challenging technical issues.

### Viber Rakuten, Inc.

Senior iOS Developer | Lviv, Ukraine | Oct 2023 - Sep 2024

- Worked as a key engineer responsible for iOS SDK development serving advertisements to more than 1.3 billion users and supporting company revenue.
- Integrated new advertising providers into the application, expanding revenue streams and diversifying income sources.
- Designed architectural solutions for core operations, improved crucial functionality, and addressed complex technical challenges related to optimization.

### Svitla Systems

Senior iOS Developer | United States, Remote | Jun 2021 - Oct 2023

- Served as a key member of the iOS team, delivering regular quarterly app releases for an app with over 930k weekly active users.
- Represented the iOS team in annual hackathons and contributed to innovative features that resulted in a 1st-place victory.
- Resolved critical deep-link issues within the project, leading to a 15% increase in daily active users.
- Implemented complex architectural solutions for core functionality, developed key features, and resolved challenging technical issues.

### GlobalLogic

iOS Developer | Lviv, Ukraine | Mar 2019 - Jun 2021

- Built core application functionality with complex architectural solutions, enabling 9 other iOS team members to build functionality on top of it.
- Represented a team of 9 iOS developers to a customer and other engineering teams, gathered requirements, and transferred them to teammates.
- Mentored 4 developers by sharing best practices, standards, and experience while removing roadblocks.
- Stabilized CarPlay and Ford auto integration usage for a Top 10 application in the Music category in the App Store.
- Initiated technical knowledge-sharing meetings that improved development process speed by 15%.

### Scopic Software

iOS Developer | United States, Remote | Sep 2018 - Feb 2019

- Covered 80% of a Bluetooth Low Energy library with unit tests.
- Gathered requirements and technical details directly from the client and implemented them in the project.
- Developed part of the application that allowed customers to receive orders 20% faster.
- Created a major part of functionality and design solutions in a project with 4 iOS developers.
- Helped the team build a scalable software product with pixel-perfect UI and business logic.

### Vakoms

iOS Developer | Lviv, Ukraine | Sep 2017 - Sep 2018

- Fixed more than 2000 errors and warnings while migrating an app from Swift 2.2 to Swift 4.0.
- Collected requirements directly from the customer and implemented them in the project.
- Developed a Proof of Concept that resulted in project acquisition for the company.
- Created more than 300 dialog windows for a HIPAA-compliant application used by medical clinics around the world.

### Uniq Tech

iOS Developer | Lviv, Ukraine | Feb 2017 - Sep 2017

- Fixed 100+ bugs, resulting in a smoother user experience.
- Finished a project 30% ahead of schedule through persistent delivery work.
- Cooperated with the lead developer to deliver an application 3 months ahead of schedule.
- Built pixel-perfect UI and business logic for a geolocation-based application.

## EDUCATION

---

### Lviv National Polytechnic University

Master of Computer Science | Lviv, Ukraine | Sep 2017 - Dec 2018

### Lviv National University Named by Ivan Franko

Bachelor of Applied Mathematics and Informatics | Lviv, Ukraine | Sep 2013 - Jun 2017
